Planning & Zoning Commission
Town Hall
Ridgefield, Connecticut

Gentlemen:

I assume because of the recent publicity, more of which is expected in the newspapers today, the Planning & Zoning Commission is aware that a proposal will soon be made to construct a golf course on Town-owned property in Ridgebury.

As chairman of the golf course committee, I should like to initially inform the Planning & Zoning Commission that our committee would like to meet with the commission to explain our proposal. We would also make the suggestion that the commission be given a tour of the proposed site by the golf course committee at a mutually convenient time.

We are aware that a special permit must be obtained from the Planning & Zoning Commission before a golf course can be constructed on this site.

For your information the other members of the committee are:

Messrs: Gino Torcellini
Vincent Paccadolmi
Ray Phelan
Judge Reed Shields

Sincerely,

Don Brooks
