## RAY PHELAN

81 BARRY AVENUE

RIDGEFIELD, CONN. 06877

Jan. 8, 1974

Mr Louis Fossi  
First Selectman  
Town O Ridgefield Conn

Dear Mr. Fossi:

This is to confirm our conversation regarding a problem at the town golf course. I have the job of finding a suitable way to cross the swamp between the 16 th green and the 17 th tee. During the recent 4 inch rain we had ( Dec. 17 ) I visited the area and found that water was backed up to a depth of 30 inches. In checking for the back up I found that two road ways were built in the development directly south. A new road has recently been built with two culverts and another further south was built about 4 years ago with one culvert. The older road seems to be responsible for this back up.

Unless this condition is taken care of very soon we are not going to be able to build the necessary pathway across the swamp . This will delay the opening of the golf course and create a financial hardship .

Sincerely

C.Ray Phelan
